

S · SURRENDER

the grip inventory

An encounter with the energy cost of maintaining control over something you cannot actually control.

🕒 10 MINUTES

THE MESS

1. Name one thing you are currently holding tightly — an outcome, a relationship, someone's opinion of you.
2. Write what you are afraid happens if you stop managing it for 24 hours.
3. Don't let it go. Just look at what the holding costs.

Notice: how much of your energy the grip is using.

NO OUTCOME REQUIRED.
