

E · EXECUTE

the moment of death

An encounter with a plan or approach you are still executing past its moment of usefulness.

🕒 10 MINUTES

THE MESS

1. Name one plan, approach, or commitment you are still carrying forward — at work, in a relationship, in a personal project.
2. Write the date you think it actually stopped working. Not when you acknowledged it — when it actually stopped.
3. Look at the gap between that date and today.

Notice: what you have been spending to keep it alive.

NO OUTCOME REQUIRED.
